## Quarto

Quarto enables you to **weave** together/ content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

## Running Code

Col1	Col2	Col3
jjd	ddd	

When you click the **Render** *button* a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
hist(rnorm(1000))
```

You can add options to executable code like this

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).
